EAM360 Application Suite

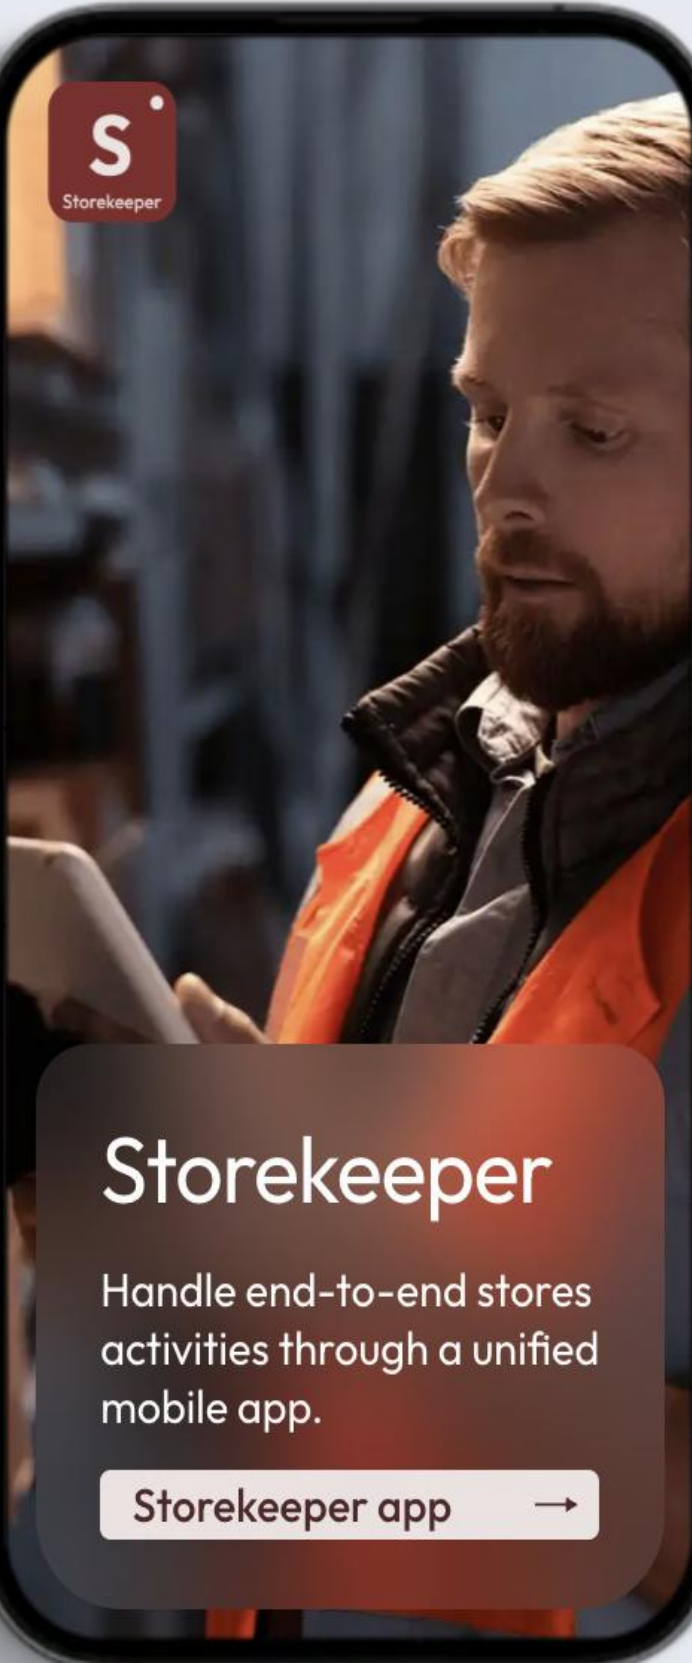

Technician

Technician

Access and act on information directly on the field.

Technician app →

Storekeeper

Storekeeper

Handle end-to-end stores activities through a unified mobile app.

Storekeeper app →

Inspector

Inspector

Simplify inspections and enhance maintenance operations with technology.

Inspector app →

Manager

Manager

Actively keep track of workflows, perform approvals and more.

Manager app →

EAM360 Application Suite

EAM360 is Sedin's Proprietary Mobile Application for Maximo and an IBM-validated solution.

EAM360 interacts with IBM's Maximo application in both real-time (connected) & offline (disconnected) modes.

EAM360 is a 100% Native Mobile app developed exclusively for Maximo

EAM360 – The Differentiators

Speed and Responsiveness

Native apps use platform-specific languages (Swift for iOS, Kotlin/Java for Android)

Exceptional user experience

Native apps harness platform-specific UI elements, offering a consistent and familiar UI.

Security

Native apps leverage OS security features, implementing strong encryption mechanisms to protect sensitive enterprise data.

Scalable & future-proof

Native apps have direct access to device functionalities (camera, GPS, sensors) for advanced features like Augmented Reality & Location-based services, making them scalable & future-proof.

Speed and Responsiveness

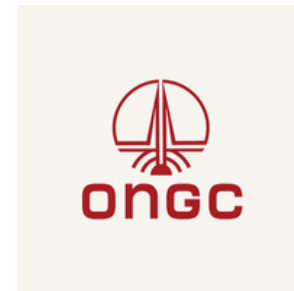

Exceptional user experience

**The
Native
Edge**

Security

Scalable & future-proof

EAM360's Key Clients

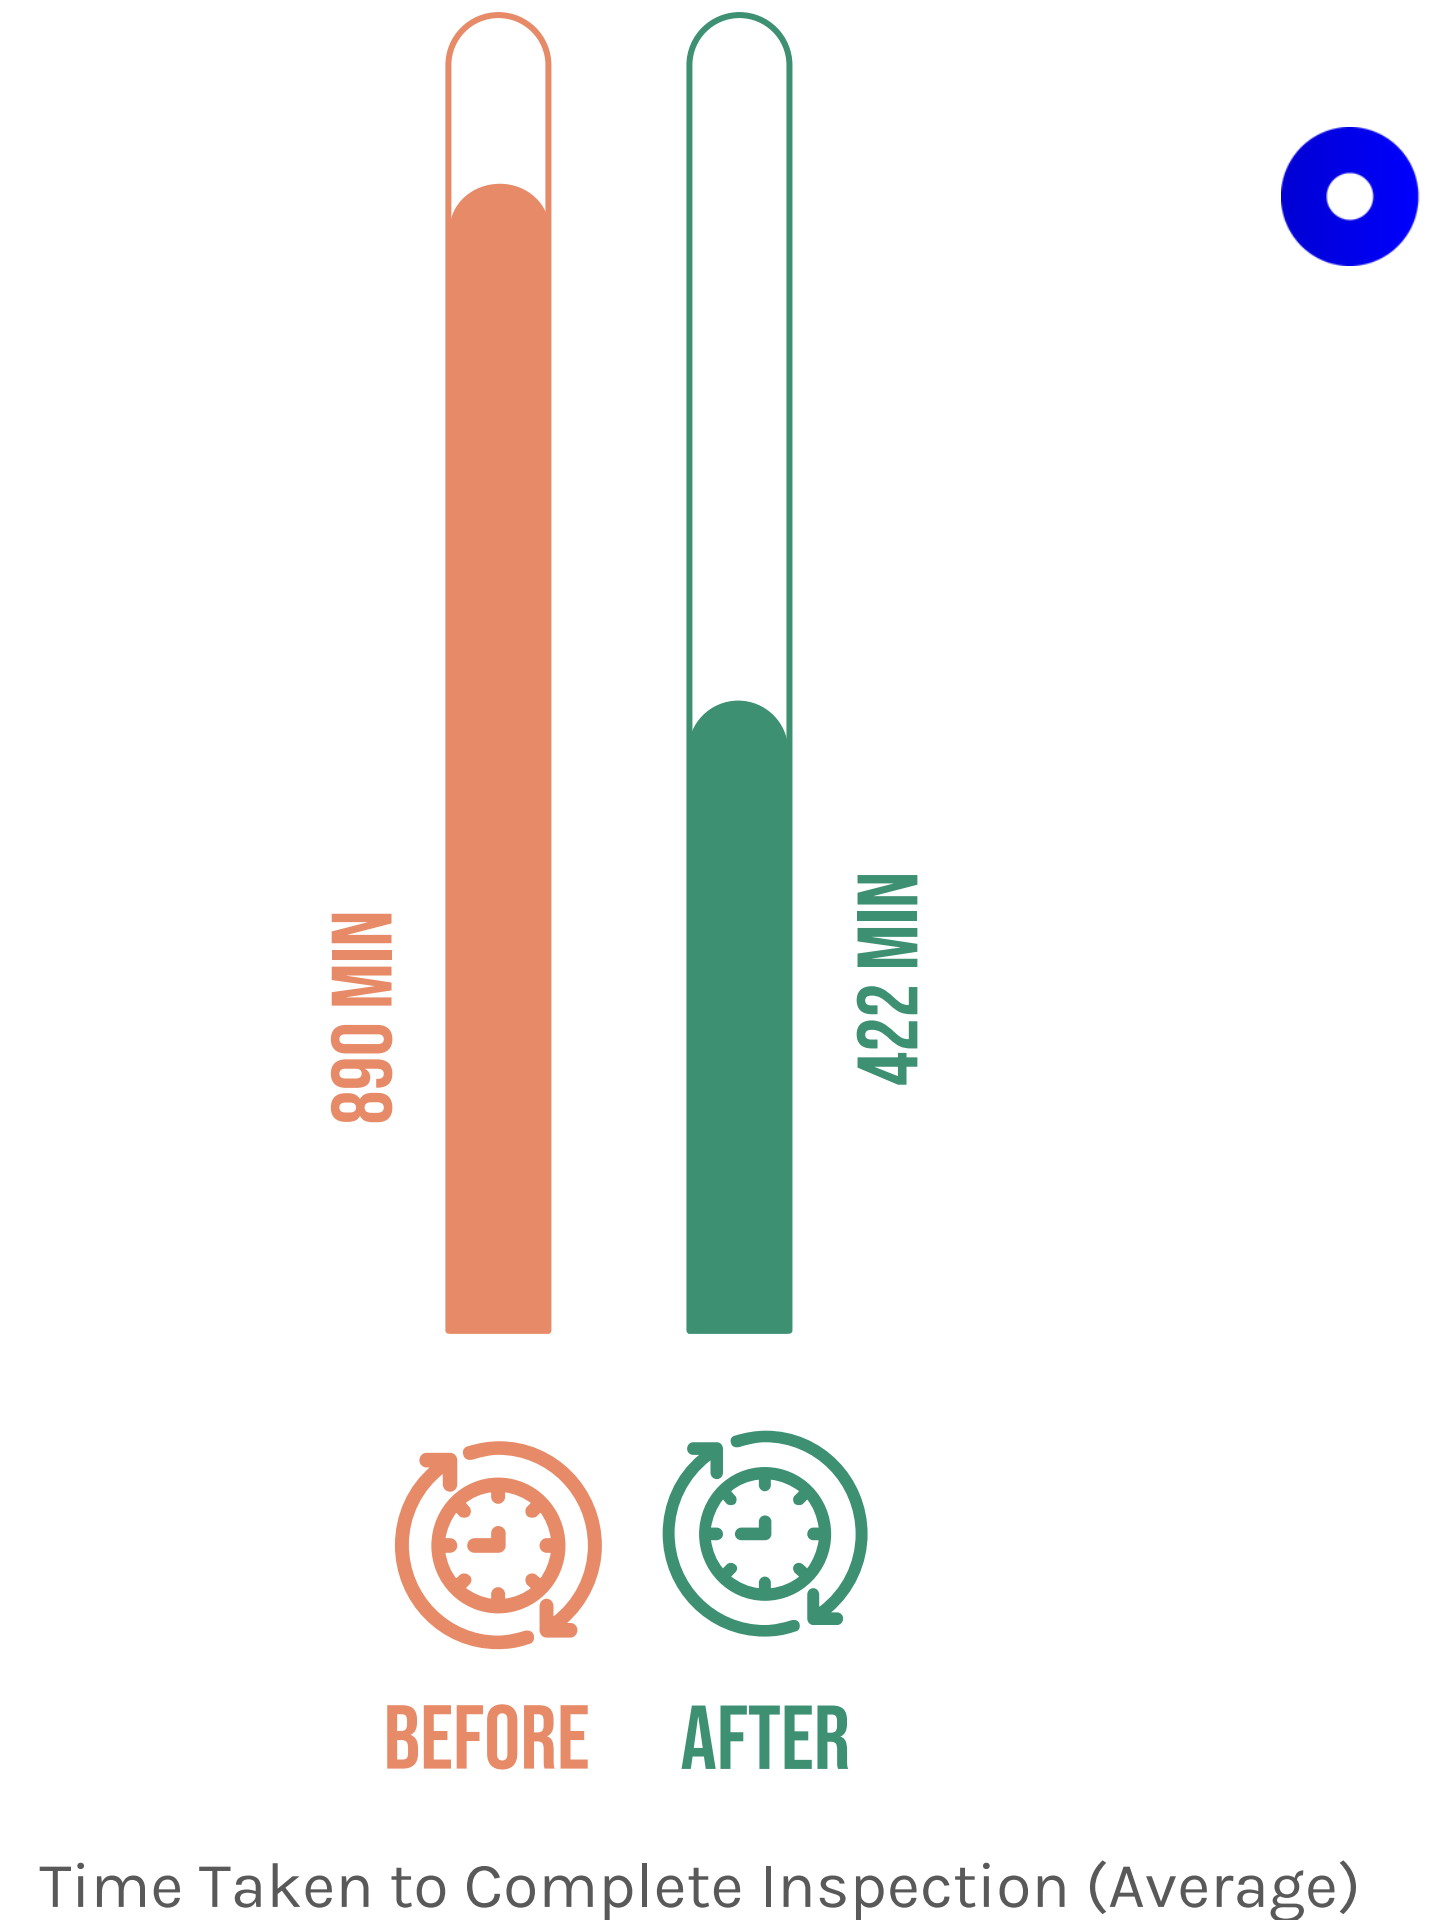

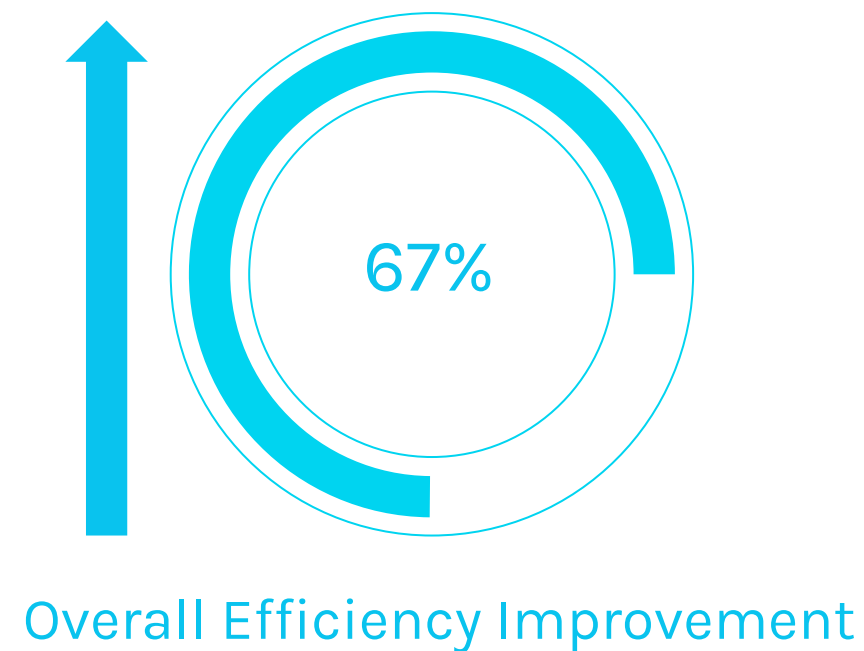

EAM360 Application Integrations

Business Benefits

- Decisiveness
- Collective consciousness
- Greater insight into processes
- Anticipation of pending problems / cost savings

Business Benefits

Activity	Time Taken in Minutes (Before)	Time Taken in Minutes (After)	Improvement
Telog – record 5 city flows	15	1	93 %
Infl / Effluent sampling	30	15	50%
