GenAI in Maximo current and roadmap

IBM Maximo

Industry leading asset management

+ IBM watsonx

- Built to serve the end user, no data science skills required
- Interact using natural language
- Seamlessly embedded in the Maximo UI
- You decide what and how much AI to leverage
- Your data is YOUR data
- Security, compliance and ethics our highest priority

AI

Built with watsonx

Maximo Assistant

Built into Maximo, the AI Assistant lets teams interact with data using natural language—no complex queries, technical skills, or multi-step processes needed.

Capabilities in Manage 9.1

- **Database Retrieval:** Instantly display work, asset, and service data using plain language.
- **Analytical Insights:** Get real-time metrics like count, sum, average, and more.
- **Interactive Results:** Customize and filter data in a full-screen workspace

AI
↻

watsonx 3:29 PM

Hi, how can I help you?

I can help you find data that's in Maximo Manage. Get started by typing your request.

Quick starters

Show assets at my site that have open work orders.
➤

Show open work orders that I own.
➤

Which service requests at my site are overdue?
➤

AI
↻
—

You 3:32 PM

how many WOs are there for each problem code at bedford?

watsonx 3:32 PM

Your request

I want to find out how many work orders there are for each problem code at the Bedford site

Results: 11 ↓ ↗

Count of Work Order	Problem Code
34	FEED
2	FLAME
18	LEAK
18	LIFT
6	LOWPRES

What's next?

↪ The future of AI in Asset Lifecycle Management

Transform the field experience

AI comes to the frontline, empowering technicians with AI capabilities, hands-free voice interaction and computer vision to accelerate inspections and instant data capture.

↪ Beginning in MAS 9.2

Collaborate with a digital teammate

The Assistant evolves from one-off answers to a persistent, context-aware teammate that can discuss, reason, and act across your Maximo data and documents.

↪ Beginning in MAS 9.2

Extensible agentic workflows

Move beyond chat to enable goal-driven workflows where agents coordinate across tools and systems that are extensible by IBM, customers, and the ecosystem.

↪ Beginning in MAS 9.2

An explosion of use cases across every part of the asset lifecycle

A small subset;

- Asset Condition Insights
- Intelligent CBM
- Lease Abstraction
- Technician work assistance
- WO Generation
- Natural language formula
- Risk assessment advisor
- Admin assistance & insights
- Asset inspection analysis

+ *Many, many more*

Key features of IBM Maximo FSM

Smarter scheduling

Optimize maintenance and service scheduling.

Enhanced dispatching

Effortlessly dispatch work to the right crews.

Optimized scheduling and dispatching with AI

Create efficient schedules and intelligent dispatching tasks.

Mobile

Manage any asset, anytime, any place.

Remote expert assistance

Reduce errors with expert guidance in real time.

Complete Mobile Solution

9.2 - Allow technicians to inform their availability through timesheets

Maximo Visual Inspections

Continuing to expand usability and interoperability for the desktop and mobile experience.

AI-enabled asset inspections

Put computer vision AI capabilities into the hands of your asset inspection teams to identify failures, anomalies, and critical operating conditions.

Run inspections anytime, anywhere

Conduct efficient remote and on-site inspections using not only mobile devices, but also drones, thermal and specialized imaging cameras, as well as fixed cameras installed on critical assets

Maximo Real Estate and Facilities

Connected Portfolio Intelligence

Space management and reserve

- Optimize space with dynamic planning, real-time insights, and occupant services

Capital projects and facility condition assessment

- Enhance decision-making with a credible budget framework, justified strategies, and effective execution

Lease management

- Integrate transaction, admin, and accounting for cost savings, compliance, and AI-driven insights

Monitor with workplace analytics & energy and asset monitoring

- Track usage with IoT sensors and Wi-Fi, integrating with existing sensors for energy monitoring

Additional MAS 9.2 Updates

+ Continued investment across industry and asset class solutions

- Renewables
- Veg Mgmt
- Civil Infrastructure
- HSE
- Transportation
- Nuclear

APM

- Lightweight Monitor engine that scales
- Configurable dashboards
- Industry Accelerators - 66 Scoring Models for Electrical Distribution and Transmission: Health, Criticality, Effective Age, EOL Probability, Risk
- Dissolved Gas Analysis for transformers using Duval triangle visualization
- Weibull Distribution Analysis for Probability of Failure
- Reliability Strategies (RS) - Extended AI capabilities to build out failure and remediation descriptions
- Tighter RS connection with Health, JobPlans and PM's and Meters

Spatial

- 3d Visualization
- Smart Geofencing
- Linear Visual Control
- Heatmap
- External data dynamic upload
- Data Synch Diagnostic

MAS Technical

- OAuth2 SMTP authentication for outgoing emails (MS)
- Improvements to License Consumption Dashboard
- Improved Data Import
- E-sig for LDAP enhancement
- Support for Unsupported Languages
- Graphite Bidi Support
- Focus Menu
- User Management and Security UI improvements
- Update SAP Connector to use CPI.
- Oracle Fusion connector
- Delivery of submitted Ideas

AIP

- Integration with Replacement plans in Health and Jobplans
- Replace effective age modeling with more robust health score based models
- Enhanced asset selection including use of standard queries
- Run optimization models in background for improved performance

Currency Updates

- DB2 12.1 Support
- Oracle 26 ai Support (once on-prem available)
- Upgrade to Java 25 (Java 21 for REF)
- BIRT upgrade to 4.21
- Cognos 12.1
- MongoDB 8.0 Support
- CP4D 5.2 Support

Resource Landing Page

MUG Resource Page

Welcome to the Maximo User Group (MUG) Resource Hub!

This space is designed to help you explore IBM Maximo Application Suite (MAS), connect with the Maximo community, and access the most relevant tools, resources, and insights.

Whether you're evaluating MAS, deepening your expertise, or staying connected with the Maximo ecosystem—everything you need is right here.
